## BCSI Expertise

BCSI was born out of a desire to see the association community, the business community and consumers working together to define this new “fourth-sector” landscape. We are seeking to build bridges between each of the main constituencies and create a forum where all players can interact.

**BCSI Board of Directors** - According to our bylaws, the BCSI Board can range from five (5) to thirteen (13) members. We purposefully kept board size at a minimum to ensure quick reaction time and an intimate experience for our leadership. We do not have geographical requirements and are interested in recruiting Board members from across the United States and internationally. We plan to use the technology at our disposal to ensure our Board operates in an environmentally responsible manner. Currently, our board has a number of directors with deep expertise in working with the association community and standards setting procedures. We are seeking representatives with backgrounds in finance, marketing and social entrepreneurship. If you have an interest in serving on the Board, please contact BCSI at 916.372.8242 or via email at [admin@bcorpoinstitute.org](mailto:admin@bcorpoinstitute.org) and our staff will walk you through the candidacy process.

**BCSI Committee Pool** – BCSI is intentionally recruiting individuals to serve on our Standards Development Committees, but we are also crowdsourcing a potential pool. If you have expertise in a specific area of industry or commerce, or are a consumer who would like to participate in our Standards Development Committees, please let us know. After your qualifications are approved and your interests are identified, your name will be placed in the Committee Pool as a potential candidate. We will send out notices as Standards Development Committees are constituted to the Committee Pool and you can indicate your interest in participating in that round.
